

Step out with confidence

The **ST#3** offers the best of all worlds. It's the perfect choice if you're looking for a compact yet powerful scooter, which is still extremely simple to dismantle. For maximum driving comfort the scooter has easy to adjust handlebars and armrests, and a supportive height adjustable seat.

High range and weight capacity

As a powerful Class 2 scooter, the **ST#3** has a higher range than the **ST#1** and **ST#2** – up to 10 miles / 16km from a full charge. It also has an increased 20st / 130kg user capacity and a wider, angle adjustable seat for comfort. With higher ground clearance, the **ST#3** offers great outdoor performance but is still very easy to drive indoors.

Quick and easy to dismantle

For easy assembling and dismantling, the **ST#3** has a wireless battery box, so you don't have to think about plugs or wires. The **ST#3**'s compact and lightweight frame splits easily into five pieces for transporting or storing, and features a rear bumper lifting handle for effortless carrying.

The **ST#3** has the same standard features as the **ST#1**, plus the following:

Additional Features

- Increased range and weight capacity
- Thumb lever driving controls
- Puncture-proof tyres
- Front shopping basket
- Plug and wire free connections
- Splits for transportation and storage
- Can be stored upright to save space
- Handle for lifting
- Increased ground clearance
- Wider seat with height and angle adjustment
