

Strider **ST#4^D** | **STriking performance**

STriking performance

As the deluxe alternative to the **ST#4**, this ultra stylish scooter will be the envy of your friends thanks to its irresistible modern design. The **ST#4D** is a Class 3 scooter so you can ride on both the pavement and the highway, and enjoy the ultimate freedom when you're out and about.

Smooth performance

The **ST#4D** has suspension and a new powerful and efficient motor for maximised performance, reliability and an altogether smoother ride. With Rhino 2 controls, it also has state-of-the-art electronics for smooth, effortless acceleration.

Complete pavement and highway safety

You can be reassured the **ST#4D** comes with a whole host of safety features, including front and rear LED lights and indicators, a rear view mirror for visibility, reflectors, hazard warning lights and an emergency brake.

The **ST#4D** has the same standard features as the **ST#1**, plus the following:

Additional Features

- Increased range and weight capacity
- Suitable for use on public highways
- Luxurious fully adjustable seat with a headrest
- Rear view mirror
- Complete LED lights package
- Tiller adjustment
- Thumb lever driving controls
- High / low speed selector
- Suspension
- Emergency brake
- Alloy wheels with pneumatic tyres
