

Strider **ST#6** | Stylish freedom

Stylish freedom

This perfectly formed scooter, with its sweeping curves and enviable design, offers an unrivalled combination of performance and power to give a maximum user capacity of 31 stone / 196kg and a maximised 31 mile / 50km range.

Performance on and off the road

Whatever you're doing, you'll have lots of fun with this scooter. When you're driving on the road you'll be able to select a constant speed to make driving safer and easier. You will also be grateful for the scooter's extra ground clearance and the oil damped suspension, both of which make your journey smoother and more comfortable. On top of all these features, this scooter has an excellent grade climb to ensure you can effortlessly go up hills.

Maximum pavement and highway safety

You can be assured of maximum safety while driving on the road. The **ST#6** is fitted with all the safety features you need, such as two rear-view mirrors and lights.

The **ST#6** has the same standard features as the **ST#1**, plus the following:

Additional features

- Increased range and weight capacity
- Suitable for use on public highways and off-road
- High ground clearance
